# A Bold, Centered Title

*Eddie Wu*

## 1. Plain TEXnology

Subsequent paragraph *are* indented.* (See?) The computer breaks a paragraph's text into lines in a interesting way—set reference [1]—and hyphenates words automatically when necessary.

> "If there hadn't been room for this material on the present page, it would have been inserted on the next one."

o If there hadn't been room for this material on the present page, it would have been inserted on the next one.

o  If there hadn't been room for this material on the present page, it would have been inserted on the next one.

<good>If there hadn't been room for this material on the present page, it would have been inserted on the next one.

<good> If there hadn't been room for this material on the present page, it would have been inserted on the next one.

**Theorem T.** *The typesetting of math is discussed in chapters 16–19, and math symbols are summarized in Appendix F.*
